COVID-19 Update

To all our valued Business Partners,

All Belimo locations are operating with a high level of product availability. Thanks to the remarkable efforts of our employees worldwide, we have been able to cope with this pandemic in such an excellent way as that our customers did not experience any increase in lead times or lack of availability of our products. At the same time, we were maintaining safety and health of our employees as our top priority in all our facilities worldwide.

Several authorities globally have confirmed that Belimo is an essential business, therefore, we feel obligated to try everything to ensuring continued supply to our customers. We thank each of our employees for their tireless commitment which enables the business continuity of our operations. All Belimo locations remain working with strict measures to ensure a safe working environment.

If current conditions are to remain stable, we do not expect to experience any general increase in product lead times or availability. If the circumstances around this situation warrant, measures will be adjusted, and a new communication will be made.
